IT Labs

Prepared by Garrick White

10.1.4 Select and Install a Printer

You are one of the IT administrators for a corporate network. You have been asked to install a new laser printer in Office 2.

In this lab, your task is to:

- Add the laser printer to the workspace.
- Use a data cable to connect the printer to the computer.
- Use a power cable to connect the printer to the wall outlet.

Complete this lab as follows:

1. Add the laser printer to the workspace.
 1. Under Inventory, expand **Peripherals**.
 2. Drag **Printer, Laser, USB** to the Workspace.
2. Connect the printer to the computer.
 1. Switch to the **Back** view of the printer.
 2. Switch to the **Back** view of the computer tower.
 3. Under Inventory, click **< Peripherals**, then **Cables**.
 4. Select **USB Cable A/B**.
 5. In the Selected Item pane, drag the Type A connector to an open USB port on the back of the computer.
 6. In the Selected Item pane, drag the Type B connector to the Type B USB port on the back of the printer.
3. Provide power to the printer.
 1. Under Inventory, select **AC Power Cable**.
 2. In the Selected Item pane, drag the male connector to the wall outlet.

3. In the Selected Item pane, drag the female connector to the power port on the back of the printer.
