10.4 Resolve Print Services Support Tickets

You are one of the IT administrators for a corporate network. As you start each day, your job is to check the Issue Trax help desk system to see if any jobs have been submitted. You are working from the computer named ITAdmin.

In this lab, your task is to:

- Open Issue Trax from ITAdmin.
- Find any tickets that need to be resolved.
- Resolve the issues using the information found in the open tickets.
- Add comments to the tickets indicating they have been resolved and close the ticket.

Complete this lab as follows:

1. From ITAdmin, determine the needs and possible fixes for Gerry's help desk ticket.
 1. From the taskbar, search for and select **Issue Trax**.
 2. Maximize the window for better viewing.
 3. Select ticket **#20** and determine the best course of action.
 4. Leave the ticket maximized so you can see the details.
2. Identify the appropriate printer based on the scenario and move it to the Workspace.
 1. From the upper left, select **Floor 1 Overview**.
 2. Under *Lobby*, select **Hardware**.
 3. Under Inventory, expand **Peripherals**.
 4. Identify the printer that best meets the scenario's requirements.
 5. Drag the **HP Photosmart Plus** printer to the Workspace.
3. Connect the printer to the computer.
 1. Switch to the back view of the laptop.

2. Switch to the back view of the printer and examine the connection ports.
3. In the Inventory, click **Peripherals** to go back to the main menu, then expand **Cables**.
4. Select **USB Cable (A/B)**.
5. From the Selected Item pane:
 - Drag the **USB Type B Connector** to the port on the back of the printer.
 - Drag the **USB Type A Connector** to a USB port on the back of the laptop.
4. Provide power to the printer.
 1. Under Inventory, select **Power Adapter for HP**.
 2. From the Selected Item pane:
 - Drag the **Power Adapter, DC** connector to the port on the back of the printer.
 - Drag the **Power Adapter, AC** connector to an AC power port on the wall outlet.
5. Verify the installation and set the printer as the default printer.
 1. Switch to the front view of the laptop.
 2. Select the monitor to access the operating system.
 3. Right-click **Start** and then select **Settings**.
 4. Select **Bluetooth & devices**.
 5. From the right pane, select **Printers & scanners**.
Your newly installed printer is shown.
 6. Select **HP Photosmart Plus**.
 7. Select **Set as default**.
6. Add a comment to the ticket and close the ticket.
 1. From the upper left, select **Floor 1 Overview**.
 2. Under IT Administration, select **ITAdmin**.
 3. In the *New Comment* field for the open ticket, add a comment to indicate that the printer has been installed.
 4. Select the **+** (plus sign) to add the comment.
 5. From the top-right of the ticket, select **Closed**.
 6. Select the **left arrow** to view the remaining ticket.
7. Resolve the next ticket
 1. Select ticket #21.
 2. From the upper left, select **IT Administration**.
 3. In the Peripherals section of the Inventory, drag the **Okidata** dot-matrix printer to the Workspace.
 4. Select the monitor to go back to the operating system
 5. Type a comment in the comment field to indicate the job is done, then press the **plus sign**.
 6. At the top right, set the ticket to **Closed**.
